

**easypanel** is the ideal alternative to plasterboard offering a smooth, tough impact resistant surface. It is perfect for those high traffic family areas or media rooms where noise may be an issue. It can also be used in garages and storage areas for added strength and hanging support.

### Specifications

Thickness	Length	Width	Weight (6.7kg/m <sup>2</sup> )	Finish
9mm (other thickness available on request)	2400mm	1200mm	19.3kg/sheet	Pre-primed
	3000mm	1200mm	21.7kg/sheet	Pre-primed
	3600mm	1200mm	29.0kg/sheet	Pre-primed

### Profile

- A smooth face with a micro-arised edge detail shows the joint as a feature
- Manufactured from 9mm MDF MR – E0 rated board
- Pre-undercoated finish requires minimal preparation before final painting
- Sizes are nominal and can vary slightly in width and length
- Impact resistant – saving on future maintenance and repairs
- *Easyjoin* system – no joint sealing required, better material usage
- Consistent board face – no knot holes, splitting, warping or splinters
- Easier and faster to install than timber planks or plasterboard

### Suitable for

- Internal wall and ceiling linings
- Above Dado Rail – grooved feature wall panelling
- Alternative to plasterboard in areas of high traffic, impact and/or where additional surface density is required

**Note:** easycraft MDF must not be directly subjected to water. If being installed into a wet area refer to Guidelines for Installing Easycraft Wall Linings in Bathrooms, Laundries and Kitchens on our website. We recommend **easyclad** as the best suited base board for wet room applications.
