

THE ZIP HYDROTAP® CLASSIC RANGE.

IT'S WATER. REFRESHED.

BOILING | CHILLED | SPARKLING

IT'S WATER. REFRESHED.

ZIP – THE GREAT AUSTRALIAN SUCCESS STORY.

From a small Sydney manufacturer of water heaters for kitchens and bathrooms in 1962 to an industry leader with exports to over 60 countries, Zip continues to set the global standard.

In fact, we were recently recognised with the Australian National Exporter Award. Over the last 50 years our business has grown to employ over 500 Australians with branches across the country as well as offices in the UK and New Zealand.

At Zip, we are driven by innovation and a passion for providing quality products and service. By incorporating world-class filtration technologies we have evolved from a company that provided instant boiling water to a company that has refreshed drinking water. We promise to instantly deliver water any way you like it – It's Water. Refreshed.

John Doumani, CEO

EXPERIENCE THE ZIP EFFECT.

DRINK MORE WATER. FEEL MORE WOOHOO.

Currently the majority of Australians do not drink enough water and up to 75% of us are dehydrated.

The pure taste of Zip puts the pleasure and sparkle back into water, with instant boiling, chilled and sparkling filtered water on tap. So now you'll enjoy drinking more and experience the many health benefits of proper hydration.

Your conscience will also be crystal clear because the Zip HydroTap performs to the highest standards of environmental responsibility and sustainability. Plus there are no plastic water bottles going to waste.

When water is irresistible, it's easier than ever to drink more and improve your wellbeing, health and happiness.

Experience The Zip Effect.

WATER... MADE IRRESISTIBLE.

The latest generation Zip 0.2 micron filtration system ensures your water is crystal clear and free from dirt and contaminants as small as 1/5000th of a millimeter. In fact, the taste and odour of chlorine is removed, while fluoride is retained, making each and every glass more enjoyable and better for you.

SPARKLING WATER AT YOUR FINGERTIPS.

Quench your thirst for sparkling water with a Zip HydroTap. Everyone will love the instant convenience of having filtered water the way they want it. The Zip HydroTap also features chilled and boiling water. So no more waiting for the kettle to boil or wasting money on expensive bottled water.

REFRESHINGLY SUSTAINABLE.

With advanced energy efficiency and best-in-class cooling technology, the Zip HydroTap performs to the highest standards of environmental responsibility and sustainability. Unlike water-cooled systems, our air-cooled ventilation system does not waste precious water.

RELIABILITY IS OUR REPUTATION.

We are so confident in our technology, design and build of the Zip HydroTap, we have extended our warranty to 5 years*. This is supported by the largest national company - owned installation and service team in our industry.

ZIP HYDROTAP® CLASSIC

Boiling | Chilled | Sparkling | Filtered | Instantly

THE ONE AND ONLY HYDROTAP CLASSIC. WATER ANY WAY YOU LIKE IT.

Now you can make water irresistible to your family with the Zip HydroTap Classic. With boiling, chilled and sparkling water instantly available, you will never have to buy, chill or dispose of bottled water again. The Zip HydroTap is famous for combining stylish design with outstanding energy efficiency and environmental responsibility. The amazing Zip 0.2 micron filtration system delivers the crystal clear water your family deserves instantly.
